

RESEARCH GRANT PROJECT

FINANCING APPLICATION

1. Identification of the project manager:

Surname:

Given name:

Teaching and/or research title:

2. Applying insitution

3. **Project title:** (Max. 200 characters with blanks);

4. **Duration of the project:**

5. **Summary of the project:**

6. Description of the research project:

6.1. Research context and motivation. Key concepts of the project are given in the current scientific framework and problems or new study points are identified.

6.2. Objectives and related activities. The objectives and activities of the project are explained, with a clear reference to the importance of the topic for research and the novelty that is introduced in this area.

6.3. Methodology. The research methodology must be presented in detail, in conjunction with the latest approaches in this area, indicating some important milestones. The organization and planning of the project, in conjunction with the objectives is made in the form of a work plan held (related objectives and activities) that are presented chronologically . The work plan will include a time estimate for the project by each member of the project team, in units of months / person. It will support the appropriateness of the project team with arguments as well as the research infrastructure for the fulfillment of the project in the specified period

6.4 Impact, importance and applications. Questions are discussed on the expected impacts of the project, in a further scientific framework, including a discussion of the application directions tested during the project, if it is the case, but also the potential impact of the project objectives in the scientific, social and economic context.

6.5. The exploitation / dissemination of research results (publication of articles , participation in conferences).

6.6. Measures for compliance with the ethical standards in research.

7. Resources and budget. The existing relevant resources are presented for the development of the project (experiment equipment and systems, either their own or in cooperation with other authorities). Each chapter of eligible expenses - such as logistics and mobility is described in detail. The list of major equipment, with their estimated value is presented.

Total budget chapters (expenditure)		Distribution of expenditure		Total
Logistics (research infrastructure, material costs, distribution, etc.)				
Mobility (ensuring participation in research and documentation events at home and abroad, participation in national and international scientific events)				
Total				

8. Scientific competences of the human resources:

8.1. Project manager:

8.2. Research team

List of research team members

*** For “Teaching or scientific title”: Professor / Assistant Professor**

**** “PhD”: YES / NO / In training**

8.2.1. Research team members:

HEREBY WE CONFIRM THE LEGALITY AND ACCURACY OF THE INFORMATION
IN THIS FINANCING APPLICATION
